

THE IVY APARTMENTS
AT THE IMPERIAL

WHAT MAKES THE IVY UNIQUE?

In comparing our community to others, we believe we stack up pretty well to other senior living communities in both services and amenities. However, we believe there are a lot of things that sets us apart from them as well. Here are some of the reasons that make The Ivy unique?

Location

If you want to live in the Chicago, you can't beat Lincoln Park. We are located in a safe and friendly community surrounded by world class dining, theatre, the zoo and parks. Living at The Ivy gives you proximity to all the amenities and services of Chicago and this historic Lincoln Park area.

Our Affordability

Unlike a traditional Independent or Assisted Living community, The Ivy, being a Supportive Living Community, is often a more affordable senior living option and a better value. Also, if a resident happens to run out of money, they may meet criteria that can make them eligible for public assistance. If so, your apartment, services and amenities will not change. Also, unlike many traditional independent or assisted living communities, we don't weigh you down with extra fees such as entrance fees, application fees or last months rent.

Continuum of Care

The Ivy is part of a continuum of care that extends to the Imperial Grove Pavilion, a sub acute skilled nursing and rehabilitation center located in the same building. Living at the Ivy gives you access to a wider range of services than most senior living communities and keeps you close to home.

Ivy Physicians Group

Part of this continuum of care also includes the Ivy Physicians Group, where doctors still make house calls. It's unique for a senior living community to have a doctor's clinic on-site staffed with two geriatricians from Advocate Illinois Masonic hospital, Dr. Birinder Marwah and Dr. Annie John. For added convenience, we also have traveling medical practitioners including an optometrist, dentist, podiatrist, psychologist, registered dietician and home health services.

The Size of Our Apartments

If you compare the square footage of our studio apartments to other senior living communities in the Chicago, you'll be happy to see how large they are. In addition, we offer oversized bathrooms, generous closet space a full kitchen.

Fine Dining Program

Unlike some senior living communities, Ivy residents have 3 rather than 2 meals per day to choose from. We also hold to the adage that breakfast is the most important meal of the day. That's why instead of just a continental breakfast bar like other communities, Ivy residents have a hot breakfast. We also offer alternative entrees for lunch and dinner daily and nutritional snacks and beverages available 24 hours a day, allowing for even more resident choice. On Sundays, residents also enjoy an elaborate brunch buffet with an omelet station served with champagne mimosas.
